

ASSOCIATE OF SCIENCE

Mathematics

The Associate of Science (AS) in Mathematics program at DCB provides students with a solid foundation in mathematics with small class sizes and one-on-one interaction between the student and teacher. The classes focus on analysis, problem solving, and real-life applications of mathematics principles. Most courses involve the use of graphing calculators and/or computer software.

Why study mathematics?

The mathematics program curriculum is designed for those who are planning to transfer to a four-year college or university to obtain a bachelor's degree in mathematics or related major.

Career choices

Many mathematicians work in technology, insurance, technical consulting, research and manufacturing, physics, aircraft manufacturing and development, engineering, astronomy, and space exploration. They also teach in colleges and universities and do research and development in any industry. Career possibilities include:

- Actuary
- Teacher
- Statistician
- Systems analyst
- Economist
- Market research analyst
- Financial analyst-advisor
- Tax administrator
- Computer programmer
- Computer software engineer
