## **Classroom Policies:**

Work must be submitted on time to receive full credit.

## **Weekly Course Access:**

It is essential to build culture and community in the online environment in order that students collaborate together to build a network of learners. To foster and develop this community, COMMUNICATION is ESSENTIAL. Since the course is a three-credit course, it is reasonable to ask students to log in to the course a minimum of three times each week. This means three separate days (of the students choice according to their schedule) a student is expected to access the course to check materials, updates, and participate in partner chats.

## **Quality of Work:**

At the college level of learning, it is expected that all work submitted is free of spelling, grammar and punctuation errors. Participation in the course is expected and taken into account when determining course grades. Discussions and information must be thought-out, in-depth, and incorporate new vocabulary and concepts learned during the course.

## **Academic Integrity:**

The academic community is operated on the basis of honesty, integrity and fair play. Occasionally, this trust is violated when cheating occurs, either inadvertently or deliberately. This Code will serve as the guideline for cases where cheating, plagiarism or other academic improprieties have occurred.

1. The primary responsibility of the students, faculty and administration is to create an atmosphere where the honesty of individuals will not be questioned.

a. Faculty members are responsible for providing guidelines concerning cheating and plagiarism at the beginning of each course, and should use precautionary measures and security in cases where cheating is likely to occur.

b. Students are responsible for submitting their own work. Students who cooperate on oral or written examinations or work without authorization share the responsibility for violation of academic principles and the students are subject to disciplinary action even when one of the students is not enrolled in the course where the violation occurred.
