

DAKOTA COLLEGE AT
BOTTINEAU

ASSOCIATE OF SCIENCE

Physical Education

Physical educators can use their degree in many different areas. Teaching physical education and coaching in high school and elementary schools is the most common and most popular career path. There are also opportunities to work within sports-related fields, sporting equipment and design, and sports management. Others continue their education to become professionals in sports medicine and sports psychology.

Why study physical education?

The Associate of Science (AS) in Physical Education degree at Dakota College at Bottineau is designed for transfer students who want to go into the teaching and coaching profession. We strive to prepare our candidates with the knowledge and background with an education theme. Most of our majors are also varsity athletes who would like to get involved with coaching.

Career choices

A physical education degree prepares graduates for careers in many fields, including teaching, coaching, and sports-related professions.

Focused courses for your degree

Along with physical education courses, students are encouraged to complete biology and other sciences while at DCB to prepare them to focus on advanced physical education courses upon transfer to a four-year institution. The curriculum includes:

- HPER 100 Concepts of Fitness and Wellness
- HPER 207 Prevention and Care of Injuries
- HPER 208 Introduction to Physical Education
- HPER 217 Personal and Community Health
- EDUC 250 Introduction to Education
- EDUC 260 Education Psychology

“The physical education program here at DCB prepares me and makes me excited for my future in coaching.”

– Ty Ham, Mt. Enterprise, TX
