

BIOL 221_A&P II_Online_Syllabus

Course Prefix/Number/Title: BIOL 221 - Anatomy and Physiology II-Online

Number of Credits: 4 semester credits

Course Description: A study of the structure and function of the human body.

Course Objective:

Upon completion of this course students will be able to: 1. Students gain a more thorough understanding of the inter-relationships and organizational hierarchy among the systems of the body. 2. Students will gain a more thorough understanding of role of feedback systems, osmosis/diffusion, electrolyte balance, acidosis/alkalosis in maintaining homeostasis. 3. Diagnostic procedures 4. Treatments of disease 5. Organ systems that can be covered include musculoskeletal, respiratory, circulatory, nervous, integumentary, endocrine, lymphatic, digestive, reproductive, and urinary.

Pre-/Co-requisites: BIOL 220

Instructor: Janelle Green, MS MEd

Office: N/A

Office Hours: N/A

Phone: NA

Email: Janelle.a.green@dakotacollege.edu

Lecture Schedule: Online

Lab Schedule: Online

Textbook: Anatomy and Physiology, Patton and Thibodeau, 9th/10th Edition

Lab Manual: Hands on Labs- student ordered through <http://holscience.com/>

General Education Competency/Goal # 1: Identifies the interrelationships between humans and their environment.

LO # 3: Applies scientific information in everyday life

Course Requirements:

You are required to use Respondus Lockdown Browser and ProctorU and/or a verified proctor for proctoring of this course. If you cannot afford or would not like to use ProctorU, you will need to find an approved proctor at a testing center, high school, etc. If you complete an exam without a proctor, it will automatically result in 0 points for that exam.

It is imperative and cheaper to schedule ahead of time for a proctoring slot on ProctorU. There are limited time slots, and it can be more expensive if you schedule last minute.

Grading is based on students earning a grade based upon the percent of total possible points they obtain. Although subject to slight modification based on the discretion of the instructor, this course will consist of ~1051 points: 14 quizzes worth 10-40 points each for 305pts, 1 vessel image exam (34pts) 1 mid-term, and 1 final exam worth ~270 points each and laboratory and assignment points are worth approximately 387 points.

No assignments are accepted late. I highly suggest you do not save assignments until the last day of the two-week timeline.

Final letter grades are assigned based on the following criteria:

- A = 89.5-100% of the total points
- B = 79.5 - <89.5% of the total points
- C = 69.5 - <79.5% of the total points
- D = 59.5 - <69.5% of the total points
- F = <59.5% of the total points

Grading for assignments does not begin when you submit them. Grading begins after the last student submits the assignment or the unit due date passes.

Please utilize the gradebook to review feedback for labs. Incorrect answers are only provided for assignments after the unit deadline passes.

There is not extra credit for this course unless it is built into an exam or assignment already. Also, please do not request a grade that is needed for a program, this is not the responsibility of the instructor.

Tentative Course and Lab Outline:

Intro Items 8/24:

- Course Overview and Syllabus Quiz
- Proctor Information

Unit 1 9/5:

- Labs: Getting Started & Laboratory Safety
- Reading: Blood (Ch.27) and the Heart (Ch.28)
- Assignment: Blood Typing and Antigen Recognition

- Begin Lab: Cardiovascular Lab
 - Quiz: Ch. 27 & Ch. 28
- Unit 2 9/19:
- Reading: Blood Vessels (Ch.29) and the Circulation of Blood (Ch.30)
 - Lab Due: Cardiovascular Lab
 - Assignment: Pulse Point/Pressure
 - Quiz: Ch. 29 & Ch. 30
 - Exam: Vessel Diagrams
 - Reading: Lymphatic System (Ch.31) and Innate Immunity (Ch.32)
 - Begin Lab: Lymphatic System Assignment
 - Quiz: Ch. 31 & Ch. 32
- Unit 3 10/3:
- Reading: Adaptive Immunity (Ch.33) and Stress (Ch.34)
 - Lab Due: Lymphatic System Assignment
 - Quiz: Ch. 33 & Ch. 34
 - Reading: Respiratory Tract (Ch.35)
 - Lab: Anatomy of Respiratory Lab
 - Quiz: Ch. 35
- Unit 4 10/17:
- Reading: Ventilation (Ch. 36) and Gas Exchange (Ch. 37)
 - Begin Lab: Respiratory Physiology Lab
 - Quiz: Ch. 36 & Ch. 37
 - Lab Due: Respiratory Physiology Lab
 - Midterm
- Unit 5 10/31:
- Reading: Upper Digestive Tract (Ch. 38)
 - Lab: Digestive System Lab
 - Quiz: Ch. 38
 - Reading: Lower Digestive Tract (Ch. 39) and Digestion and Absorption (Ch. 40)
 - Lab Due: Digestive System
 - Quiz: Ch. 39 & 40
- Unit 6 11/14:
- Reading: Nutrition and Metabolism (Ch. 41) and Urinary Tract (Ch. 42)
 - Begin Lab: Urinary Tract System
 - Quiz: Ch. 41 & Ch. 42
 - Reading: Fluid and Electrolyte Balance (Ch. 43) and Acid-Base Balance (Ch. 44)
 - Lab Due: Urinary Tract System
 - Quiz: Ch. 43 & Ch. 44
- Unit 7 11/28:
- Reading: Male Reproductive System (Ch. 45) and Female Reproductive System (Ch. 46)
 - Begin Lab: Reproductive System
 - Quiz: Ch. 45 & Ch. 46
 - Reading: Growth and Development (Ch. 47)
 - Lab Due: Reproductive System
 - Quiz: Ch. 47

- Reading: Genetics and Heredity (Ch. 48)
- Assignment: Genetics and Genomics
- Quiz: Ch. 48
- Final Due 12/11

Relationship to Campus Focus/Theme

This course addresses the campus theme by incorporating the latest diagnostic procedures, treatments, and other technologies that are used to identify and treat human diseases and disorders.

Classroom Policies

- 1) Be respectful of other students and the instructor
- 2) Notify the instructor of any coursework that may be late prior to the due date

Student Email Policy

Dakota College at Bottineau is increasingly dependent upon email as an official form of communication. A student's campus-assigned email address will be the only one recognized by the campus for official mailings. The liability for missing or not acting upon important information conveyed via campus email rests with the student.

Academic Integrity

All students are expected to adhere to the highest standards of academic integrity. Dishonesty in the classroom or laboratory and with assignments, quizzes, and exams is a serious offense and is subject to disciplinary action by the instructor and college administration. For more information, refer to the Student Handbook.

Disabilities and Special Needs

Students with disabilities or special needs (academic or otherwise) are encouraged to contact the instructor and Disability Support Services as soon as possible for accommodations.

Title IX:

Dakota College at Bottineau (DCB) faculty are committed to helping create a safe learning environment for all students and for the College as a whole. Please be aware that all DCB employees (other than those designated as confidential resources such as advocates, counselors, clergy and healthcare providers) are required to report information about such discrimination and harassment to the College Title IX Coordinator. This means that if a student tells a faculty member about a situation of sexual harassment or sexual violence, or other related misconduct, the faculty member must share that information with the College's Title IX Coordinator. Students wishing to speak to a confidential employee who does not have this reporting responsibility can find a list of resources on the DCB Title IX webpage.
