

Course Prefix/Number/Title: EMS 215 – Airway/Ventilatory Emergencies

Number of Credits: 2 credits

Course Description: This course provides the paramedic student with critical airway management skills that will be the most critical steps in the initial assessment of every patient. The student will be proficient in both basic and advanced airway maneuvers, equipment and skills. This course consists of lectures and lab sessions which include low fidelity endotracheal intubations, ventilations and supraglottic airway placements etc. prior to the start of the operating room portion of EMS 240.

This course introduces the paramedic student to specific medications used in the pre-hospital setting that are focused on respiratory emergencies. Mechanism of action, indications, contraindication, dosing and correct administrations are discussed in this class.

Teaching-learning methods in this course may include, but are not limited to, assigned readings, independent studies, presentations, discussion, critical thinking exercises, labs and class activities.

Pre-/Co-requisites: EMS 208

Course Objectives: To integrate didactic and psychomotor skills to teach the student basic and advanced airway techniques set in the EMS standard instructional guidelines. To integrate comprehensive knowledge of anatomy, physiology, and pathophysiology into the assessment to develop and implement a treatment plan with the goal of ensuring a patent airway, adequate mechanical ventilation, and respiration for patients of all ages.

Integrates complex knowledge of medications associated with respiratory emergencies and rapid sequence intubation. Understand the indications, contraindications, side effects and dosage of emergency medications for patients of all ages.

Instructor: Wayne Fahy and Mary Jund

Office: Trinity Riverside, 1900 8th Ave SE Minot ND

Office Hours: By appointment.

Phone: Wayne: 701-858-6309
Mary: 701-858-6308

Email: Wayne Fahy: wayne.fahy@dakotacollege.edu
Mary Jund: mary.jund@dakotacollege.edu

Lecture/Lab Schedule: Monday and Thursday from 6:15-10:15 PM. Friday from 9:00 AM to 4:00 PM. See class schedule.

Textbook(s): Bledsoe, B., Porter, R., Cherry, R. (2023). Bledsoe's Paramedic Care Principles and Practice Volumes 1& 2, 6th Edition. Hoboken, NJ: Brady Books. Pharmacology for Paramedic Students – an open resource publication. Other materials provided by instructors.

Course Requirements: Students will be required to attend class and complete assignments in MyBradyLab and exams in EMStesting on time. Final exams will be worth 40%, additional tests 20%, quizzes 10%, homework 10%, lab/clinical 10% and affective behavior 10%. All final course grades will be calculated on a weighted grading system.

Students will also be required to meet portfolio requirements (where applicable). Please see DCB Paramedic Handbook for full grading and course requirements.

Tentative Course Outline: Bledsoe's Paramedic Care Principles and Practice, 6th Edition. Vol. 1, Ch. 22. Pharmacology for Paramedic Students – an open resource.

TOPIC-CLASSROOM	READING
Airway Management and Ventilation	Ch. 22
Pharmacology for Paramedic Students	Ch. 6
Medications Used in Pain Management, Sedation & RSI	
Human Airway (medium of your choice)	Due Date: EMS 215 Final Test date.
Oxygen Dissociation Curve Paper (2 pages)	Due Date: EMS 215 Final Test date.

TOPIC-LAB

See Platinum Planner Student Minimum Requirements

Course objectives details to be covered according to the EMS National Standards instructional guidelines.

General Education Competency/Learning Outcome(s) OR CTE Competency/Department Learning Outcome(s): Students will apply knowledge gained in the didactic component of the program to achieve a minimum of 70% proficiency in all of the following curricular levels of EMS Testing exams: 1) airway management, 2) medicine, 3) EMS operations, 4) assessment, 5) preparatory, 6) special patient populations and 7) shock/resuscitation/trauma.

Students will demonstrate proficiency in basic, individual and pathological laboratory skills, competencies and scenarios.

Relationship to Campus Theme: The goal of the Paramedic Program is to prepare professionals to work in the emergency medical services industry. The Paramedic Program is committed to a hands-on learning environment and uses field experiences and emerging technologies in emergency medical services as common instructional techniques.

Classroom Policies: Dakota College at Bottineau Paramedic Program guides.

Student Email Policy: Dakota College at Bottineau is increasingly dependent upon email as an official form of communication. A student's campus-assigned email address will be the only one recognized by the Campus for official mailings. The liability for missing or not acting upon important information conveyed via campus email rests with the student.

Academic Integrity: According to the DCB Student Handbook, students are responsible for submitting their own work. Students who cooperate on oral or written examinations or work without authorization share the responsibility for violation of academic principles, and the students are subject to disciplinary action even when one of the students is not enrolled in the course where the violation occurred. The Code

detailed in the Academic Honesty/Dishonesty section of the Student Handbook will serve as the guideline for cases where cheating, plagiarism or other academic improprieties have occurred.

Disabilities or Special Needs: Students with disabilities or special needs (academic or otherwise) are encouraged to contact the instructor and Disability Support Services within the first two weeks of the semester to line up accommodations.

Title IX: Dakota College at Bottineau (DCB) faculty are committed to helping create a safe learning environment for all students and for the College as a whole. Please be aware that all DCB employees (other than those designated as confidential resources such as advocates, counselors, clergy, and healthcare providers) are required to report information about such discrimination and harassment to the College Title IX Coordinator. This means that if a student tells a faculty member about a situation of sexual harassment or sexual violence, or other related misconduct, the faculty member must share that information with the College's Title IX Coordinator. Students wishing to speak to a confidential employee who does not have this reporting responsibility can find a list of resources on the DCB Title IX Webpage.
