

Bottineau Community Rocks!

Tuesday, November 26

6:00—7:00 pm

DCB Campus at Thatcher Hall
Alumni Conference Room

Come join us for this FREE event on the Dakota College of Bottineau Campus. Bottineau Community Rocks! is a community and family event for those interested in learning more about geology, minerals, fossils, crystals and more!

We meet once a month in the Alumni Conference Room in Thatcher to hear presentations and speakers, hear of exciting news in the geology realm, discuss our experiences and rockhounding tales, and share the love of geology.

Our topic for November is **The Wonderful World of Trilobites!**

Come learn about our friends the Trilobites, the many types of species found, where they lived, and their amazing story of survival throughout millions of years. You'll even get a chance to take your OWN trilobite fossil home with you!
