

Bottineau Community Rocks!

Tuesday, March 25

6:00—7:00 pm

DCB Campus at Thatcher Hall
Alumni Conference Room

Come join us for this FREE event on the Dakota College of Bottineau Campus. Bottineau Community Rocks! is a community and family event for those interested in learning more about geology, minerals, fossils, crystals and more!

We meet once a month in the Alumni Conference Room in Thatcher to hear presentations and speakers, hear of exciting news in the geology realm, discuss our experiences and rockhounding tales, and share the love of geology.

Our March topic is:

Rocks from the Sky: The Science and Spectacle of Meteorite Impacts

This month, we'll discuss the origins of meteorites, their composition, and their dramatic collisions with Earth throughout history. Attendees will discover how these cosmic events have shaped our planet's history and learn about current efforts to detect and potentially prevent future catastrophic impacts.

Sponsored by—DCB Community Education and Bottineau Community Rockhounds
