

Course Prefix/Number/Title: PHYS 120/ Fundamentals of Physics Online

Number of Credits: 4

Course Description: An application of the concepts and principles of physics to the real world. Topics include mechanics, heat, optics, electricity, magnetism, atomic and nuclear structure.

Pre-/Co-requisites: HS algebra

Course Objectives: The primary goal of this course is to provide the students with an understanding of basic physical principles that will aid them in everyday lives and careers as informed members of society as well as in other courses. The students should attain a conceptual understanding of physics and math concepts so that they can readily apply their knowledge to real world problems and situations. Travel may be necessary to understand the role of physics in their everyday life.

Instructor: Angie Bartholomay

Office: NSC 111

Office Hours: MW 9:00-10:00am, MTF 1:00-2:00pm or by arrangement

Phone: 701-228-5471

Email: angela.bartholomay@dakotacollege.edu

Lecture/Lab Schedule: TBA

Textbook(s): Physics; Paul G Hewitt, 9th Ed. 2012

Course Requirements:

In order for you to be successful in physics you will need to review the notes, complete practice assigned problems, conduct the labs and read the text.

Grades will be assigned based on the following scheme:

A- 90-100%; B 80-89.4% ; C- 70-79.4%; D- 60-69.4%; F<60%

Component	points possible	total
Unit exams	5 x 80	400
Quizzes	6 x 20	120
Lab reports	12x 25	<u>300</u>
Total		820 pts

Tentative Course Outline:	reading	lab
Week #1	Chapter #1- Science, scientific method, structure of the solar system	Scientific method
Week #2	Chapter #2 & 3 - Motion in one dimension	made for speed
Week #3	Chapter #4- Force, Newton's Laws of motion	Newtons Laws
Week #4	Exam Unit #1	

	Chapter #6- momentum, work	momentum
Week #5	Chapter #7- energy, conservation of energy, power	Work vs power
Week #6	Chapter #8- rotational motion	simple machines
	Chapter #9- gravity	
Week #7	Chapter #10 projection and satellite motion	Projectile motion
	Exam Unit #2	
Week #8	Chapter #11- Atomic nature of matter & Chapter #12	gas laws
Week #9	Chapter #13- liquids & Chapter #14- gases	Bouyancy
	Exam unit #3	
Spring Break	March 16-20	
Week #10	Chapter #15 Temperature, heat & expansion	Heat capacity
Week #11	Chapter #16 heat transfer	
Week #12	Chapter #17 Change of phase	
Week #13	Chapter #18 Thermodynamics	
	Exam Unit #4	
	Chapter #19 vibration and waves	waves lab
Week #14	Chapter #20 Sound	
	Chapter #22 electrostatics	sound
Week #15	Chapter #23 electric current	electricity
	Chapter #24 magnetism	
Week #16	Chapter #25 properties of light	optics
	Exam unit #5	

General Education Competency/Learning Outcome(s) OR CTE Competency/Department Learning Outcome(s): #1 Identifies the interrelationships between humans and their environment
Learning Outcome #1 Applies scientific methods of inquiry

Relationship to Campus Focus: This course addresses the campus theme by incorporating the role that physics plays in our everyday life and the impact it has on our natural world. In addition, students will use technology to conduct labs as well as study how technology can be used in physics. The course will address the role of physics in their everyday life as well as in their future.

Classroom Policies: The use of calculator software on cell phones, tablets and laptops will not be permitted on exams. There will be a 30% deduction for any exam not taken on time unless prior arrangements have been made with the instructor, and the exam must be made up within one week. Labs & Quizzes cannot be made up, unless special circumstances exist and prior approval has been made with the instructor.

Student Email Policy:

Dakota College at Bottineau is increasingly dependent upon email as an official form of communication. A student's campus-assigned email address will be the only one recognized by the Campus for official mailings. The liability for missing or not acting upon important information conveyed via campus email rests with the student.

Academic Integrity:

According to the DCB Student Handbook, students are responsible for submitting their own work. Students who cooperate on oral or written examinations or work without authorization share the responsibility for violation of academic principles, and the students are subject to disciplinary action even when one of the students is not enrolled in the course where the violation occurred. The Code detailed in the Academic Honesty/Dishonesty section of the Student Handbook will serve as the guideline for cases where cheating, plagiarism or other academic improprieties have occurred.

Disabilities or Special Needs:

Students with disabilities or special needs (academic or otherwise) are encouraged to contact the instructor and Disability Support Services.

Title IX:

Dakota College at Bottineau (DCB) faculty are committed to helping create a safe learning environment for all students and for the College as a whole. Please be aware that all DCB employees (other than those designated as confidential resources such as advocates, counselors, clergy and healthcare providers) are required to report information about such discrimination and harassment to the College Title IX Coordinator. This means that if a student tells a faculty member about a situation of sexual harassment or sexual violence, or other related misconduct, the faculty member must share that information with the College's Title IX Coordinator. Students wishing to speak to a confidential employee who does not have this reporting responsibility can find a list of resources on the DCB Title IX webpage.
