

Course Prefix/Number/Title:

ART 110 - Introduction to Visual Art (ONLINE)

Number of Credits:

Three (3) Credits

Course Description:

We live in a world full of visual imagery in which we are a part of that scenery. This course studies the structure, meaning and appreciation of visual art forms, using it as a framework on which to build further knowledge and understanding of art. This course will help students understand art terminology, the history of art, artists' works, and the evolution of art through the ages. We will also explore mediums in art such as drawing, painting, printmaking, sculpture, photo and film, through lecture, and hands on in class assignments.

Pre-/Co Requisites:

None

Course Objectives:

1. To learn art terms and facts in the visual arts
2. To become familiar with a variety of art techniques and media
3. To develop an artistic awareness and understand the language of art
4. To discuss art aesthetics and how we are emotionally involved with artwork.
5. To understand the structure and meaning of visual art forms as revealed through the analysis of psychological, sociological, and philosophical applications of art media.
6. To develop a knowledge of historical artworks and famous artists along with the evolution of different art styles.
7. To develop critical thinking skills as it relates to artistic creativity.

Lecture/Lab Schedule

ONLINE

Textbook(s):

The text in this course is optional – The power points are all based on the text. However, the text is recommended if you are a reading type learner.

Experiencing Art Around Us - By Thomas Buser - 2nd Edition
ISBN 0-534-64114-8

Course Requirements:

Each class will consist of weekly lectures, assignments, discussions, and bi-weekly quizzes.

Tentative Course Outline:

Week 1 : Introduction and The Nature of Art.

Week 2: The Nature of Art. Cont

Week 3 : The Nature of Art. Cont

Week 4 : Subjects and Their Uses in Art

Week 5 : Subjects and Their Uses in Art Cont.

Week 6: The Visual Elements

Week 7 : The Visual Elements Cont.

Week 8 : Light and Color

Week 9: Light and Color Cont.

Week 10: Surface and Space

Week 11: Principles of Design

Week 12: Drawing

Week 13: Printmaking

Week 14: Painting

Week 15: Sculpture

Week 16: Final Projects

General Education Competency/Learning Outcomes:

Competency/Goal 7: Evaluates principles of Arts and Humanities

Learning Outcome 1: Creates art

- Performance Indicator 1: Applies knowledge of fundamentals of genres
- Performance Indicator 2: Creates original works of art

Learning Outcome 2: Analyzes art

- Performance Indicator 1: Demonstrates knowledge of art forms
- Performance Indicator 2: Applies base knowledge to critique art works

Learning Outcome 3: Evaluates aesthetics

- Performance Indicator 1: Demonstrates knowledge of systems of aesthetics
- Performance Indicator 2: Evaluates relationship of content and form in art works

Relationship to Campus Focus:

This course addresses the campus focus by having students compare and contrast traditional art and methods in art with current trends in art while anticipating future changes in the art world.

Classroom Policies:

1. Be respectful of other students, technicians, instructors, and guests.
2. You must participate in discussions in order to receive full credit.
3. Respect and care for all equipment whether it's yours or the colleges.
4. Be on time.
5. Be courteous.
6. Be humble.

Student E-mail Policy:

Dakota College at Bottineau is increasingly dependent upon email as an official form of communication. A student's campus-assigned email address will be the only one

recognized by the Campus for official mailings. The liability for missing or not acting upon important information conveyed via campus email rests with the student.

Academic Integrity:

According to the DCB Student Handbook, students are responsible for submitting their own work. Students who cooperate on oral or written examinations or work without authorization share the responsibility for violation of academic principles, and the students are subject to disciplinary action even when one of the students is not enrolled in the course where the violation occurred. The Code detailed in the Academic Honesty/Dishonesty section of the Student Handbook will serve as the guideline for cases where cheating, plagiarism or other academic improprieties have occurred.

Disabilities and Special Needs:

contact the instructor and Disability Support Services.

Title IX:

Dakota College at Bottineau (DCB) faculty are committed to helping create a safe learning environment for all students and for the College as a whole. Please be aware that all DCB employees (other than those designated as confidential resources such as advocates, counselors, clergy and healthcare providers) are required to report information about such discrimination and harassment to the College Title IX Coordinator. This means that if a student tells a faculty member about a situation of sexual harassment or sexual violence, or other related misconduct, the faculty member must share that information with the College's Title IX Coordinator. Students wishing to speak to a confidential employee who does not have this reporting responsibility can find a list of resources on the DCB Title IX webpage.

Disclaimer Statement:

The instructor of this course reserves the right to make changes to this syllabus without prior notice.

Announcements:

You are responsible for reading ALL announcements. This is where I post IMPORTANT information that can and will affect your grade. Be sure to check it at least once a week for updates.

Grading Philosophy:

Please understand that I do not care about your grades, I care about your education. My job is to teach you, your job is to learn what I teach you, and hopefully more. If we both do our jobs, grades shouldn't be necessary.

The best way to succeed in my class is to NOT focus on - "what's my grade," or "what do I need to get an A?" - but instead focus on - "how much can I learn." If you

embrace this, you won't be doing assignments for grades, you'll be doing them in order to learn, and the grade will become secondary and take care of itself.

Assignments:

ALL assignments must be created for this class. Work created for other classes or created in the past will NOT be accepted.

When I have questions for you to respond to, I only give half credit so I know that you have done the initial assignment, but I'm waiting for a response.

I'll update the grade once the questions are answered.

Discussions

Discussions are a very important part of learning in this course.

When posting in discussions, you get 25 points for each of the following.

You get 25 points when you post your initial comment

25 points when you respond to a classmate's post

25 points when you respond to my response, which is titled, "My Thoughts".

I post, "my thoughts" after everyone has had a chance to post and discuss.

In order to keep up with grading, I will give you points for wherever you are at. So, if you've only done your initial post, and I am grading, you will get 25/75 for a score. DON'T PANIC. I only do this to keep up with grading and so you can see where you are at. I will update your grade each time you post.

There are some discussion posts that do not require a back and forth discussions. For those, I will give you 75 points for your initial post, and any further discussion is optional

Also, please participate and comment on more than one classmate's discussions as well. This is a great way to discuss and learn. Keep your comments civil, appropriate, and constructive.

Grading Scale:

A (90 – 100%) B (80 – 89%) C (70 – 79%) D (60 – 69%) F (below 60%)

GENERAL INFORMATION:

Online

The online classes are available 24 hours a day, 7 days a week. You may log on at any time and watch recorded lectures, interact in discussions, and turn in and view homework assignments. Online students can complete the entire program without ever coming to campus. **Online students are required to own, or have access to, all of the equipment needed to complete the courses. The equipment list is available in the online classroom, or from your instructor.**

On-Campus

On-campus students live on campus, or in the area of Bottineau, ND. You will meet in the photography classroom during scheduled meetings times for classes. The same as you would for any other on-campus class. On-campus students will have access to all of the camera gear needed to complete the courses, however it is recommended that photography majors purchase their own cameras as soon as possible after entering the program, if they don't already have a camera.

Photography Lab — Along with scheduled lecture times, on-campus students are also required to attend photography lab hours. These hours are obtained by working in the studio outside of regular class hours, or photographing college activities and events and assisting the campus photographer on photoshoots.

Hands-on Learning — The photography instructor will lead hands-on photo shoots in class and for projects outside of class. On-campus students are required to attend these projects, along with the regularly scheduled lectures as part of their photography lab hours.

Hybrid Course

A hybrid course combines online, on-campus, and video conferencing education. All on campus photography courses are hybrid.

Why Hybrid? — The hybrid courses offer a great deal of flexibility and options to the photography students.

Lectures — With the hybrid courses, online students will now have the option of joining in on the live lectures via telecommunications, while the on-campus students will now have access to all of the online recorded lectures to use when needing a refresher.

Homework — All homework, whether an online or on-campus student, will be turned in online. This allows for more interaction and learning with a larger group of photo students who will share and critique each other's work.

Critiques/discussions — All critiques and discussions will take place in the online forum. This allows for larger group participation, more feedback from your peers, networking and building photographic relationships for future collaborations, and a broader perspective of peers offering feedback on your work. The instructor will critique live, via telecommunications during regular class times, through recorded video critiques, or a combination of both.

Hands-on Learning — (see description above) On-campus students are required to attend all hands-on learning projects as part of the lab component of the on campus program. All online students are invited, although not required, to attend all hands-on learning projects held each month on campus.

Attendance:

If you aren't in class, you aren't learning the material.

ONLINE STUDENTS - The main advantage of online courses is that you can “attend” class whenever you want. This is also one of the largest disadvantages to online education because, without a set meeting time, it takes a great deal of self discipline to make sure you log in and get your work done.

Moodle tracks your log in time and, if you don't log in enough hours, you cannot pass the class. Credit hours are based on a certain number of hours spent in the classroom, you are required to have a certain number of hours per credit in order to pass.

ON-CAMPUS STUDENTS – along with the daily lectures, on campus students work together doing hands-on practice for each assignment during class. If you are not in class, you are missing out on a great deal of information and practice that is impossible to “make up” later.

Credit hours are based on a certain number of hours spent in the classroom, you are required to have a certain number of hours per credit in order to pass.
